Does anybody know if pond brook is launchable ?
If they had to draw down to work at steel bridge, it may not be?

I know Taconic cancelled there Tx there for oct. 5th, Since they were concerned with the shallow water.

Vito was there this passed Saturday and launched and although it is shallow he had no problem. We also had launched out of there once before and had no problem.

I am not at this point thinking there will be any problem launching.

:unsure: :huh: :dry:
