## Inflatable sos suspenders

Reg. price \$129. I've worn them on and off for 2 years...\$40. These are great because you don't even know you are wearing them after the first hour. Great when fishing on those real windy days with lots of boat traffic. Or for the res. guys (wish I wore it one patricular day) in tippy rowboats!...

Is that the one you used on the reservoirs? They inflate when they get wet? For 40 \$ I will take it. If it is the one I am thinking of.
