
trying to post a report

Posted by NY OZ - 2009/04/15 10:36

Trying to post a report with pic in this forum. How are we supposed to attach photos?

If you look below the window that you type in there is;

"Select Image file to attach".

Do you not see that when writing a post? It allows you to browse your computer and select an image. There is also another category below that to attach a file. Hopefully you see both of these when you are writing a post!

Let me know so that if something needs to be done it can be. :huh: :dry:

Ken,

I think it just an issue with the file size.

thanks,

Oz
