
Minn Kota Maxxum

Guys I am selling a 1999 Minn Kota Maxxum 54 LBS of thrust 24 volts. The motor was on my old Ranger for 7 seasons then I had to have the lift assist which was a dumb move cause the motor worked fine. The motor was sold to Pat Reilly and he never installed it on his boat, I am trying to sell it for Lynn Reilly \$175.00 or best offer!

Ken, Thanks for posting the motor. Did you put it on NY Bass as well?
