## lefty bait casters and rods

Posted by Anthony - 2009/06/16 11:18

---

I have 5 101d reels, 1 201 with the 7to1 ratio and 1 201 SF (Green) reel each on a custom G blank rods. Some have not even been fished. I haven't posted them anywhere but here so if any Outcast brothers are interesred in any of them give me a call. I have one of those expensive scales too, can't even remember what they are called but if anyone needs one I have it. Lots of tackle too, jigs, rubber baits, crank baits etc.

I hope everyone is doing well, good luck this season!!!!

Anthony

I might be interested in the 201 and SF reels/Rods  
Anthony....

let me know how much.

The only rod that is 7'6" ia a loomis GL2  
telescopic model # FSR904x. I'm pretty sure we spoke about this one when I purchased it Dennis and you didn't care for it. I have another 7' G blank made on an RX8 blank model C865 with titan guides, 12-25 3/8 - 1 1/4. The other rods are:

6'8" Med 8-15 1/4-5/8 ex fast

7' RX8-C843 10-17 1/4-3/4

6'10" med 8-15 1/4-5/8 I used it for small crank baits

6'10" RX8 S822.5 6-12 1/8-1/2 baitcasting drop shot rod. The only one that doesn't have the titan guides is the crank bait rod. Some were fished very little.

The cullem rite scale will not power up. I used maybe twice but it is 2 yrs old. I guess I'll send it in to be fixed. Jimmy shoot me an email and I send you a bunch of pics archer292@optonline.net.

Dennis Bassbum, I will give you a call tonight.

Sorry for the delay in getting back.

Anthony
