
Happy 4th of July!!!

Posted by Bassthum - 2010/07/04 09:46

Happy Birthday to the United States of America!! 234 years old today - and still collecting Social Security?! You sure know how to work the system!!

My 95' Ford Explorer is back to being used everyday with 218,000 miles on it and yes the Scion is made by Toyota 30+mpg. 5 years old 138,000 miles and nothing but brakes, tires and oil changes. When America wakes up and can give me a vehicle like that I would buy it.
