
What is your favorite bait?

Posted by Joe - 2011/02/23 09:50

Being that no one is posting I figured I would try to start some conversation. If you could have only one lure to fish with what would it be? Second part of the question is what is your favorite bait to fish with?

My answers are a Senko if I only had one lure to catch fish with and my favorite bait to use would be a jig.

Hey Joe,

We all know that Senkos don't work. I have to agree, If I only had 1 lure to fish with it would be a Senko.

My favorite bait(s) to fish would be a toss up between topwater and a jerkbait.

I Like your answer Booze, I am happy to see that you are willing to share. Leigh you had it right the first time, now you want to follow Nick...Pick one. Mike got it right picked what he thought would catch and what he likes to use (the most fun to fish) Now I'll add a twist, what is your favorite season to fish? I like the Summer because I feel the fish are more predictable. However I love being out on the water in the Fall.

The question of the choice of one bait is of course for the most versatile bait you can think of which would be a Senko, except if you get to a specific season. For instance in early Spring at a place with Smallmouth Bass if the water temp is cold you can't beat a hair jig and just a little bit warmer and the jerkbait rules.

As far as what lure I like to fish, I like a jig and a texas rigged worm, they're kind of basic but I like them for Summer fishing, the worm in the vegetation and the jig around wood, trees, etc.

Nice topic Joe, thanks for getting it started! :) :) :)

If I only had one bait like when I started it would be a rapala. I wouldn't be tournament fishing if I can only have one bait and if you are only going to catch a few might as well add some excitement.

My favorite bait would be a white Terminator spinnerbait

Serious answer for the orig question would have to be a jig and trailer...I can't think of any time during the season where that bait isn't tied on and it catches from ice out to ice in...most versatile bait on board.
Favorite bait to throw and catch on is the Smithwick original rogue...JERK-JERK-WAIT...JERK-JERK-WAIT...JERK-J-WEIGHT...LOVE IT!

I havn't fished it in years but we'd be talking about the floating rapala largest size that still has 2 trebles f9 maybe (Mikey Sku# help me) in black and silver. Took Dad to mamasasco lake many years ago and he coulkd'n get the snap pop of a pop-r gave him a rapala. He couldn't cast more than a few feet from the boat but he hammered them doing the drag.

It was the only bait I owned for 2 years and caught me enough fish to keep me interested.
