Joe R registered on April 22 that he was fishing both days and needed a partner. I am not sure of how our rules cover this.

Since Joe registered before the tournament on Lili, but after the draw for Zoar & Bantam, wouldn't that make him second to last behind Booze?

Confusing, aint it?

As the late & last registrant, Joe would still be second to last on Bantam behind who ever wins on Zoar.

Who's last... Is it Bread, Bags or Booze? Or could it be Bum & Booze, But not Bread & Bags.

The draw for the first four tournaments were held at the April 21st meeting. All registrants AFTER the drawing are late.

The only thing retarded is the fact that you sold your boat and now you piss and moan about it!

Bitch! :laugh:

It seems that only Chris and I know how to read! Hey Leigh how about putting a few minutes in to read the rule! After that you should see it very clearly!
I'm serious about that! If you find it ambiguous please show me where! :)

The only thing that MAY change is the winner being the starter boat! The late registrant part should not change!

Everyone was told the change deadline very early in the off season and also as it progressed, the April meeting is a month past the deadline!

Deal with it!
