
\"Family Fun Day\" to be filmed for \"Lunkerville\"

Posted by Joe - 2013/02/12 18:23

Mike D. is very interested in doing a "Lunkerville" show filming our Family Fun Day. I would like to get an idea on how many people are planning to fish that day. I would like to get a good turnout of kids, as you will see Mike D. is interested in furnishing new rod & reel combos for all of the kids. We will need to sign release forms to film the kids. Mike says they can be done the day of the tournament. We have been communicating back and forth. Below you will see his last message.

Sounds good. Do you need combos for the kids? I'm sure I can outfit everyone with South Bend R2F combos and tackle. And a goodie bag with lures, stickers, etc. Since you are running the show, I think it would be a good idea for me to fish with you. I'd also like to maybe jump around to different boats or at least follow some of the kids. Also, we can wait to get release forms the day of the derby.

Thank you to all who have responded. However, Mike D. would like to have a more definitive head count. So for all who have not posted please do.

This is taken from the Club minutes from the last meeting. Kenny stated;

"We need member participation with their boats and we need them to bring their children, grandchildren, nieces, nephews or neighbors who would like to fish to make this show a success with regards to showing the promotion of fishing to kids. And of course the children would need permission and signed waivers to be on the show which will be aired on television. Please make plans as Mike D'Avila needs to get a count on how many children will be fishing as soon as possible".

I would like to get an idea on how many people are planning to fish on Family Fun day. I would like to get a good turnout of kids, as you will see Mike D. is interested in furnishing new rod & reel combos for all of the kids. He wants to get them sent now as Southbend is sponsoring 5 events "derby's" for Mike. All the other event organizers have received their rods reels & what ever else was being furnished. Kenny and I spoke yesterday and we will be doing additional canvassing by phone. This is a great opportunity for our children and young people associated with our club. Below is a list of responses that I have received so far.

Bill S. w/ Son & Grandson
Adonis with friend and 2 children
Kenny w/ Grand Niece Isabella
Mike W. w/ son Nicky and Nephew Nicholas
Vito w/ Grand daughter Victoria
and possibly Leigh with his nephew.

We would like to get as many club members and kids as possible. Non boaters with children can hook up with boaters that do not have children to take. Mike D. will be on my boat and we will be traveling around the lake to visit everyone. However, he wants to now have a child on our boat as well for filming purposes. So I am looking for a teen or child that would like to fish with Mike D. He had suggested someone that is not shy. Maybe Leigh and his nephew can fish with Joey Bags, Jimmy K and family with Paul etc. these are only suggestions. Again Ken and I will be calling to try and get a definitive number as soon as possible.

Update: Dean K. With kids
Chris G. With some of Kenny's family.
I am thinking of asking for at least 30 rod & reel combos to be safe.
Any feedback?
