## Batteries

Posted by JP Bass - 2017/04/16 09:32

---

What are you using & How long do they last??

Currently Im on my 3rd season with everstart 29s.. & they are getting week a 3rd of the way through the day..only thing they power is my TM..

Unfortunately I cant afford the high end batteries @ this time..they cost more then my boats worth..lol

---

you need to let me know what sizes.

Woody purchased these so I know the cost off hand

Delco DC 31'S (crank) runs \$115.00

Delco M27MF (trolling) \$82.05 ea

other sizes are 29 and 24

crank is only available in the 31

=====

---

2 / 29's....I don't crank. .

Thx

Delco M27MF (trolling) \$82.05 ea

other sizes are 29 and 24  
crank is only available in the 31

Dennis what are the reserve minutes in the 29's and are the 31's made in deep cycle?  
If so how much?

I might have to go for the Odyssey batteries at almost \$400 each I have one that runs everything except the trolling motor and after 7 seasons it's still going strong.
