Thanks guys..I answered the rest of my questions ...So East Twin is called washinee lake & west Twin is called washing lake...  
The 2 lakes are seperated by an isthmus which is under 300 ft wide...

Yes only small or lower boats..I can make it in because of how my boat is designed...if you have a high windshield or powerpole ur no good..and it's 3 plus hours

Yep.....  
After doing some Research,I think I am more interested in the trout stocking..:)

Your boat makes it under bridge with a little effort....Definitely go back there if you go...>
