
Tourney pictures from Candlewood

Posted by Joe - 2009/05/09 07:45

Hi Guys,
Here are some pictures from Yesterday's tournament.

The download of the file did not work. I will have to post them individually.

Nick and Kenny,
I am going to forward the pictures to you. I have posted in the past from my camera. I am now using my daughters old digital as my fishing camera. It keeps coming back that the files are too big even with one picture.
Joe

Joe,
Reduce the image size to 480 X 640 and it will post. You can go 800 X 800 but then you have to scroll to see the picture both side to side as well as up and down stick to 480 X 640! :huh: :huh: :huh:
Or just send them and I will handle it! :laugh: :woohoo: :laugh:

I am unable to post pics here unless I first go through photobucket. BIG PAIN IN THE ASS. My pics are up on facebook.

I am not a facebook member, do you have a link to your photobucket page like Joe R.?

Yeah I do but I don't have the pics loaded to there yet. Face book is free. Sign up and search for my name Michael Bellomo. There are a couple of us, I believe you would recognize me. The one positive with facebook is that you can upload your pics direct without having to go through photobucket first.
