Any predictions? Tough? Easy? Weight? I don't why, but I am feeling a challenging tx. for this one. I think there will be only 2 bags over 15lbs.

Whatcha got?

Senko chuckers will be the only ones without a limit possibly. If they do get a limit it could go over 15.

Depending on activity levels guys fishing deeper will come in with 10-16lbs. If we have some cloud cover Senko guys are fucked.

Cloudy conditions: Garhart or Head

Sunny conditions: Jimmy or leigh

Well then its a real good thing that I can catch a bunch of fish on Maho without using a senko. :laugh:

Just in case Mikey...watch your ass or its liable to get wiped with a senko.

PS...tough talk from the 9th place guy.:P

Yeah thats right...Jewboy on a roll / DONT hold the Maho!

Mike, if I was you, I'd just throw a senko all day while prefishing and knock those fish out of the equation.
