This is a rotating rod rack that holds 15 rods with reels attached. I hate to get rid of it but it wont fit in my basement because of the low drop ceiling. Its in perfect condition and sells for over \$100. I'll take \$25 for it. I will bring it to our October meeting.

Wow, it's getting rough here I didn't make the Classic and maybe that's a good thing because if I fish anymore and can't catch 'em I'll go crazy! :blink: :huh: :huh: :dry:

I'm just happy to be fishing the classic. No pressure. The JewDoo can't touch me. I'm there for the time with the fellas and the lap dances. Any fish caught is gravey.
