Leigh,  
I'll take the trip and share a ride....  
Give me a ring and we can chat particulars.

Do you like to fish for spawning bass?This tx falls on the full moon and a good wave of bass should come up and lock on.Not like today Big D.... :P

Think of it this way,we need 5 good fish each,8 hrs divided by 10 is 48 minutes.Take away misc boating,launch order,positioning for cast...etc....  
Thats gives each angler about a half hour per fish on nest if we are efficient.Work as a team, yet individual.5 big bites each,Done....

Still in? ;)
