
Where's your Messiah Now Basses!

Congrats to Leigh on an impressive win at Bantam Lake. Nice healthy stringer of Big Bass. I heard that he raised his rod separated the waters and plucked his bass out by hand. You never know... I heard that's how Bill Dance does it. For those of us that struggled on Saturday we are making a golden idol in your image. Don't worry "the Hat" will be slightly askew. Congratulations again.

Thanks Guys. It was a very tough day and its not like I was slamming fish from the start. I only had about 10 keepers (1 short) all day. I was lucky enough to have caught some good fish right away, although my first keeper was the only one I was able to cull. I culled a fish that went about a pound & a quarter with one that went over 3lbs. I did loose a BIG fish in the grass that would have let me cull the 2 pounder, but it was not meant to be. I never saw that fish but I think it would have been the biggest one I had. We'll never know. Thanks to Mr. Bill Dust for some excellent net work.
