Mike B and Bob G.

Nice to see you fishing this year. We'll have a good time.

Gee that is strange because I sent the password and username again as you requested and I included my phone # to call me if there were any problems and I didn't hear from them!

I also sent an email asking for details on the 3rd place finish that Sean Sr. had at Mohopac and got no reply to that either! :unsure: :unsure:

No way! Are they having trouble with what I sent or their own connection? If its what I sent I need to know so I can fix it! Don't get me wrong, if I was calling you a liar I would say just that! I don't beat around the bush! I don't know if you're kidding but I'd like to know! :huh:

Re:#8 FRIDAY July 22, 2011 Candlewood

Posted by Mike K - 2011/07/15 21:20

Kenny , Just Kidding . B)

=====

Re:#8 FRIDAY July 22, 2011 Candlewood

Posted by Kenny - 2011/07/16 18:30

Good, It is not easy to tell because the written word does not have a facial expression! I spoke to Sean Sr. today and I'll get the problem resolved with Jr. :)

See Kenny it was you...at the Challenge Cup you asked Dennis who he was fishing with this coming Friday, and he said that he thinks he had a ride.

Hey Mike get an Avatar or profile picture, I'm sick of looking at the Alfred Hitchcock silhouette. Hey that would'nt be a bad nick name "Hitchcock" Hitchcock & Buzz. Sounds like a new P.I. T.V. Series on TNT.

=====

Joey (stand up) would get booed off the stage!
Joey pump out...destroyed my livewell pumps!
Hey Joe when you filled the weigh in bag, how did you get the water to stop coming out of the back of the boat?
(Let's see him bullshit that question!)
:huh: :huh: :huh:

No bullshitting, obviously I did not shut them off correctly. And I told you that if they were damaged that I would pay for them to be repaired. Thanks for posting, you could have called,

Hey Joe, the pumps work! Just pay attention next time when someone tells you how to operate something that you're unfamiliar with and if you aren't sure you should ask questions! All modern Bass Boat livewell pumps work with an electric switch not a cable, the cable changes the waterflow on the flowrite valve, all electrical switches when operated break a circuit and snap into place like "rocker" switches!
If you can't take a little ball busting when you screw up, then don't screw up, because its going to happen!
:laugh: :laugh: :laugh:
